1. A gun factory is under construction at the foot of the Jelica Mountain, three kilometers southwest of Cacak. Construction began in 1948 and the plant is scheduled for completion in 1951. The project is being carried out by construction engineers and experts of the state-operated companies, Sloboda and Ratko Mitrovic. The army supplies the workers, but most of the skilled workers are civilians.
2. Approximately thirty five buildings are being constructed and several tunnels are being dug through the Jelica Mountain.
3. The area of the plant is about three kilometers long (from the village of Jezdina to the village of Bijeljine) and about one kilometer wide. A 500 meter zone around the plant is guarded by a military unit.
